

2019 Irrigation Schedule

The HOA common area landscape sprinklers will run three times a week and the common area flower beds will run five days a week.

The following watering schedule is in effect for **every property** in the neighborhood.

Homes that end in EVEN numbers can water all landscaping on Monday, Wednesday, and Friday.

Homes that end in ODD numbers can water all landscaping on Tuesday, Thursday, and Saturday.

All homes can run driplines ONLY on Sundays to allow flower beds an extra day of water for more delicate plants.

The Board hopes that this watering schedule will allow for owners to water at a time that is convenient for them and maintain adequate pressure. Please realize we may have to adjust this if the schedule doesn't seem to be working.

If you have questions, comments, or concerns please email our Community Manager, Shirley Tarantino, at starrantino@sentrymgt.com She will forward the information to the Board.

Thank you, in advance, for being a good neighbor and adjusting your watering schedule.
